- CPNI rules are reviewed with employees that have access to CPNI.
- Employees with access to CPNI have been trained on when they are, and are not, authorized to use CPNI.
- Company does not provide CPNI to third parties.
- Company has a disciplinary process in place for violations and for improper use of any customer information, which would include CPNI.
- Company markets its products and services to its entire customer base.
- If, in the future, the company wants to use CPNI to market outside of the total service approach, a process will be developed for notifying customers of their CPNI rights and for requesting approval to use CPNI. At that time a process will, also, be established for noting customer accounts when notification is given and indicating the approval/denial status on each customer account.
